

Holiday 2006

The holidays are approaching, it's the reason for our rhyme,
To extend our good wishes, for a great holiday time.

We say thanks for choosing us to pick up your stuff,
We try hard to make it easy, and not too tough.

A couple of thoughts though, to keep in mind,
When it comes to recycling, Sussex County's way behind.

So keep up your good efforts, and recycle each week,
Fifty percent is the State goal, but no need to freak.

It's all very simple, quite easy to do,
Why we've even made it, a no brainer for you.

We prefer one white bag, for all clean glass, plastic and cans,

Tied at the top, so to protect our worker's hands.

Newspaper and magazines, and catalogs by the ton,
Cross tie in a neat bundle, whether it's rain or it's sun.

When it comes to cardboard, we make quite a fuss,
For it must be flattened, then tied in a tight truss.

No stacking in boxes, no matter how neat and compact,
For safe transport is a must, our load needs to stay intact.

When one of our holidays is your pick up day,
No need to worry, for there's no big delay.

On the very next day, get it out early, now don't be late,
For our men will work extra hard because it is their fate,

To pick up two days work all in one,
The holiday people as well as their regular run.

Would be wonderful to do this with Santa and sleigh,

But the bad news is, you still have to pay,
To make it less painful, we've got a new way,
EFT is the ticket, your Bank zaps us our pay.

If you think you'd be interested, just give us a call,
We'll set it right up, no more checks or mailing at all.

Now comes the part of this heartfelt rhyme,
For our good wishes to you during this holiday time.

May the joy of the season be something to share,
And bring peace to our world beyond compare.

For 2007 we of course wish you good health,
And also good luck towards achieving great wealth.

May the peace, love and joy of the holiday season be yours,

Your Friends at Ayers Sanitation

Holidays:

New Years
Memorial Day
July 4th
Labor Day
Thanksgiving
Christmas
